- Power Platform: Power Apps (Canvas/Model-Driven), Power Automate, Power BI, Dataverse
- Database: Microsoft SQL Server, Dataverse
- Other Skills: Agile/Scrum methodologies, requirement analysis, client communication, unit testing

WORK EXPERIENCE

V SERVICE IT SOLUTIONS, Hyderabad, India

Dynamics 365 + Power Apps Developer

Jan 2022 – Jan 2026

- Setup Dynamics 365 sales to enhance lead to opportunity process, achieving a 20% reduction in sales cycle.
- Designed and implemented customized Dynamics 365 solutions, improving operational efficiency by 35%
- Developed and deployed Power Apps (Canvas and Model-Driven) and Power Automate flows, reducing manual effort by 30%.
- Configured Dynamics 365 entities, forms, views, and dashboards to enhance user experience and data accessibility.
- Integrated D365 and Customer insights with Power BI, developing dashboards to track KPIs and Lead conversion.
- Collaborated with cross-functional teams in Agile environments to deliver projects on time and within budget.
- Conducted unit testing and supported user acceptance testing (UAT), achieving 95% defect-free deployments.
- Provided technical support and training to end-users, ensuring smooth adoption of Dynamics 365 solutions.

COFOMO TECH PRIVATE LIMITED, Hyderabad, India

Power BI Developer

Feb 2026 – June 2026

- Designed and developed interactive Power BI dashboards to enable stakeholders to track key performance metrics and make data-driven decisions in real time.
- Built and optimized complex DAX measures and calculated columns to support advanced analytics, trend analysis, and KPI tracking.
- Developed robust Power Query (M) transformations to clean, merge, and shape data from multiple sources into unified, analysis-ready models.

- Designed efficient star-schema data models and relationships within Power BI to improve report performance and ensure scalable, maintainable data architecture.
- Collaborated with cross-functional teams including business analysts and stakeholders to gather requirements and translate them into intuitive, visually compelling reports.
- Leveraged AI-assisted development workflows to accelerate dashboard prototyping, DAX debugging, and documentation.

Key Project

Project: CRM System for Flying Cloud Solutions Role: Dynamics CRM Developer

Objective: Developed a comprehensive CRM system using Dynamics 365 and Power Platform to streamline client interactions, project tracking, and billing processes for Flying Cloud Solutions, a consulting firm specializing in Dynamics 365 and Power Platform.

Responsibilities:

- Configured Dynamics 365 Sales, customizing entities for client contracts and billing schedules to align with business workflows.
- Built a Canvas Power App for consultants to log project hours and update task statuses on mobile devices, enabling real-time data capture.
- Created Power Automate flows to automate lead assignment and invoice reminders, reducing manual follow-ups by 50%.
- Developed Power BI reports to provide insights into project profitability, client retention, and consultant performance.

Outcome:

- Reduced lead response time by 35% through automated lead assignment.
- Improved billing accuracy by 40% with real-time integration.
- Enabled 90% on-time project completion with enhanced visibility.
- Increased client satisfaction by 25% due to streamlined communication.

EDUCATION

University of East London, (London, UK) - Master of Business Administration

Sept 2019 - Sept 2021

St. Mary's College (Hyderabad, India) - Bachelor of Commerce and Computer Science

May 2015 - May 2018
